# BEAM

In the modern, connected, multi-device office, we end up with a tangle of cords for data and power. The Beam delivers power and data for height adjustable desks, keeping your workspace clean and organized, while powering all your devices.

The beam can be specified to a wide range of designs. The spring cord will adjust to any height for your worksurface, and connects your power directly to the Friant power grommet, the best interface with the Beam.

## FEATURES & BENEFITS

- 4 Duplexes per Beam (except 36": 2 duplexes per)
- Also available: non-powered base cover
- Power is 8 wire, 4 (20) AMP
- Can support over 20 CAT6 Cables
- Powered by Base Feed or Ceiling feed
- Top cap supports frosted glass, clear glass & fabric covered screens, or can be ordered with no screen
