Friant specification support does not in any way represent acceptance of liability or responsibility on the part of Friant & Associates LLC associated with specification accuracy or completeness. While every attempt is made to ensure the quality and accuracy of specification services provided, it is the responsiblity of the dealer to ensure that specifications are ultimately accurate and complete. Friant & Associates LLC expressly denies any responsibility or liability associated with errors and/or inaccuracies in specification.

It is the sole responsibility of the dealer to review workstation and cluster dimensions against the site dimensions to ensure accurate workstation placement and fit. The placement of a purchase order referencing specifications prepared by Friant & Associates shall imply that the dealer has reviewed the specifications and has accepted such specifications as being accurate and complete.
