## Meet the Jot Collection:

A versatile soft seating solution designed to support today's open, evolving workplaces without adding complexity.

# JOT

***Low-profile seating that adapts to how people work, gather, and recharge.***

Jot is a flexible lounge seating collection built for modern office environments that need to do more with less space. With a mix of high-back, low-back, and sectional options, Jot makes it easy to shape spaces that feel open and inviting, or more private, depending on the moment.

Tapered metal legs and dramatic curves give the collection a consistent, contemporary look, while multiple configurations make it easier to specify across a wide range of applications.

## ***Designed for flexibility***

---

From single lounge chairs to multi-piece sectional layouts, Jot adapts easily to different footprints and functional needs without requiring custom solutions.

## ***Comfort that supports use***

---

Supportive cushioning provides a comfortable seat that works just as well for short visits as it does for longer conversations.

## ***A cohesive look across spaces***

---

Consistent design details across the collection make it easy to carry a unified aesthetic from waiting areas to break rooms to collaborative zones.
