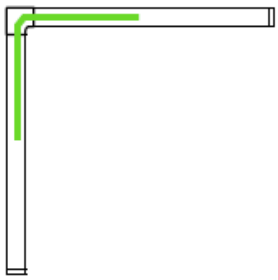
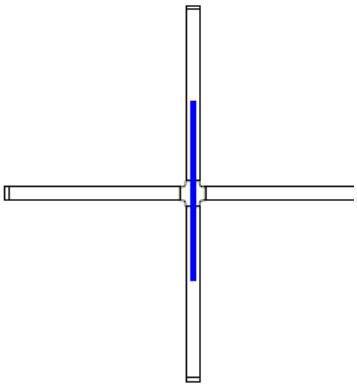
Festoons

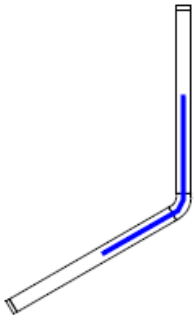
Festoons connect powered panels in a straight line or through connectors. All Novo powered panels will come with a panel to panel festoon, which extends power in a straight line from panel to panel. Because these are included, there is no need to order them separately.
Festoons will only need to be ordered separately when bringing power across a connector. Novo uses two different festoon sizes to achieve different connections. Please see below for details and specify festoons on page 35



90° Angle Festoon

- Part number Q1FHCPK.90 on page 35
- Extends power at a 90 degree angle through a 2-way, 3-way, or 4-way connector





Panel Through Post Festoon

- Part number Q1FHCPK.1 on page 35
- Extends power in a straight line through 90 ° 3-way or 4-way connector.
- Extends power through a 135° or 120° 2-way or 3-way connector.
