## Integrated Ergonomics

Zone Too was designed to provide a well-balanced workhorse of a chair that could accommodate a wide range of users. Whether a user is hard at work analyzing spreadsheets or enjoying cat videos, the Zone Too holds up. It promotes straight posture and reduces strain by offering adjustable height, tilt, and backrest. The sliding seat and adjustable armrests make it easy to find each user's sweet spot in comfort and promote overall productivity. Being highly adaptable, this task chair fits varying body types, heights, and most importantly—**work styles**.

## Comfort & Support

The Zone Too allows for the backrest position to be controlled with ease and convenience. Users can modify the height of the backrest to suit their own comfort levels, without the need for any tools or external assistance. This ensures that the backrest can be adjusted with minimal effort, so users won't struggle with the backrest to find the right position. This is especially beneficial for those who may need to reposition throughout the day or have backs that are prone to aching or soreness.

# Features and Functionality

## Height adjustable Armrest

Adjust the arms up and down to preference to reduce neck and shoulder tension.

## Synchro Tilt Mechanism & Seat Slide

With 3 locking positions, 22° back tilt, and a 2" seat depth, it is easy to accommodate different sit styles and body types.

## Plastic Base

Five-star PU base for stability. Lean forward and rest feet on base without fear of tipping over.

## Elastic & Breathable Mesh

Tight-knit mesh allows air flow as well as a sturdy back to relieve back pressure.

## Height Adjustable Backrest

The S shape backrest follows the natural curvature of the user's spine providing ergonomic support

## Class 3 Gas Lift

Smooth height adjustment to accommodate varying heights to have secure feet on the floor. Can support 150kg/300 lb.

## Nylon Casters

Easy glide nylon casters maintain strong loads and integrity under high friction and abrasive conditions, BIFMA standard.
